180,485 therms

**You can save energy and earn rebates. Learn how you can be the next success story.**

### PROJECT DESCRIPTION

The University of St. Mary of the Lake is the principal seminary and school of theology for the priests in the Roman Catholic Archdiocese of Chicago. For the past three years, the university partnered with the North Shore Gas Energy Efficiency Program to complete three projects and has earned almost \$200,000 in rebates.

### START YOUR SUCCESS STORY NOW

Your business can receive free energy-saving products and earn rebates by completing energy-saving maintenance and upgrades. Not only will you see significant savings right away, but you will also reduce your annual operating costs—allowing you to reinvest those dollars.
